ABOUT US

GENESIS & VISION

Vision is to be the most preferred financial services provider to the un/underserved segments with products and services ranging over a wide spectrum of their requirements, leveraging cutting edge technology & agility in product/service delivery

Well capitalized from day1, with Rs 300 Cr equity from the promoter Ms. Padmaja Reddy, Friends and Family

FOUNDER'S TRACK RECORD

Demonstrated competence in building Spandana Sphoorty Financial Limited and scaling it to the Industry Best!

Spandana grew to the largest Micro Finance Institution in India and sixth largest across globe and was the most profitable MFI across South Asia.

Grew the book by eight times in three and half years post CDR exit.

Spandana is the only Micro Finance Institution in Andhra Pradesh to pay back the total debt to all the lenders and exit CDR (Corporate Debt Restructuring)

Started in 1998 as a Society

Transformed to NBFC in 2004

AP MFI Crisis in 2010

Out of CDR in 2017

Successful IPO in 2019

Resigned from the Executive Position

- Ms. Padmaja Reddy is an Industry veteran and enjoys highest credibility with the lenders. During her stint as MD, she raised over Rs.25,000 Crore from various Public Sector and Private Sector banks
- She won over 22+ Awards and Accolades from various organization & media houses of International Repute
- Under her leadership, the company received over 15+ prestigious recognitions for its impactful work in the Microfinance & Impact sector

- Apart from Microfinance, the Founding team along with Ms. Padmaja have built diverse portfolio of financial products under different group companies.
 - Consumer Lending portfolio under Abhiram-Over Rs 500 cr
 - Secured Lending/LAP under Criss Financial Services (Subsidiary of SSFL)-Over Rs 200 cr
- Founding team of SSFL has moved on to Keertana, and possess a cumulative experience of over 100 years

PORTFOLIO TRANSFER (SMBT & SRUDO)

In order to accelerate the growth and augment the capital well, Board has decided to acquire Gold Loan Portfolio from SMBT(Spandana Mutual Benefit Trust) and 'M'SME Business from SRUDO (Spandana Urban and Rural Development Organization) up on representation from the Trustees and Governing Boards of the respective organizations.

Business Transfer Agreement is executed for Slump Sale of entire business which included transfer of portfolio, employees, branches, assets and liabilities in to. The Transfer was made basis a fair valuation/ consideration ascertained by an independent auditor and carried out post conducting the Due Diligence of respective Businesses.

Towards enabling business continuity, growth and compliance with metrics attributable to NBFC, Keertana has infused Rs 230 cr capital from the promoters.

GOLD LOAN INDUSTRY- OVERVIEW

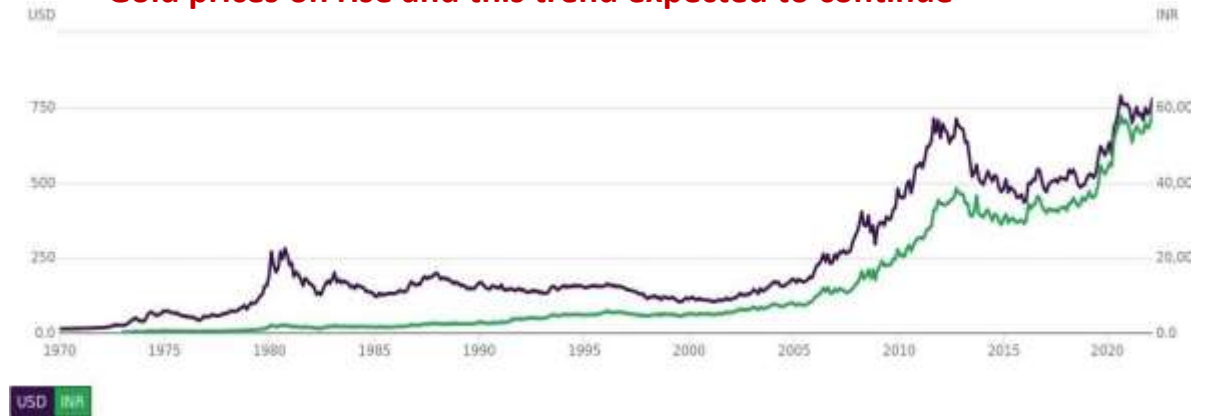

Gold remains a strong Asset Class for Indians

- India accounted for ~23% of world's gold demand between 2009-18 and is the largest holder in the world with over 25,000 tones.
- Rural communities account for ~65% of the total gold demand in the country.
- Indians considered Gold synonymous to financial security, social status and cultural legacy.
- Gold has traditionally been a liquid asset and universally accepted commodity that has seen its value appreciate over the decades.

Gold Loans as a source of credit gaining popularity

- The gold loan market in India was valued at ~INR 2.92lakh cr in 2019 and is expected to reach ~INR 6.2 Lakh cr by 2025, a CAGR of ~12.75% during the 2020-2025 period.
- The total gold loans outstanding in the organized sector in 2019 are estimated at 5.5 per cent of the total household gold holdings in India, indicating low market penetration.
- Market is dominated by informal money lenders with over ~65% market share while the organized market is mere ~35%
- With NBFCs/Banks/Fintech increasing their geographic scope and market penetration, a shift to organized players is noted.
- Various new-age fintech companies and traditional players have started to offer innovative products such as online gold loans catering to the young and urbane population-discovering a newer customer segment.
- Easy access to unsecured credit by NBFC/Fintechs and MFIs have potential to offset the need for pledging gold, but with disruptive practices, quicker processing and competitive pricing, the growth story for gold loans is expected to be intact

Gold prices on rise and this trend expected to continue

Release of pent-up demand in India led to a quarterly record for jewellery in Q4

Quarterly Indian jewellery demand*

GOLD LOAN INDUSTRY- KEY TRENDS

(contd...)

Growth to be driven by unlocking new geographies, digital enablement thus discovering newer customer segments

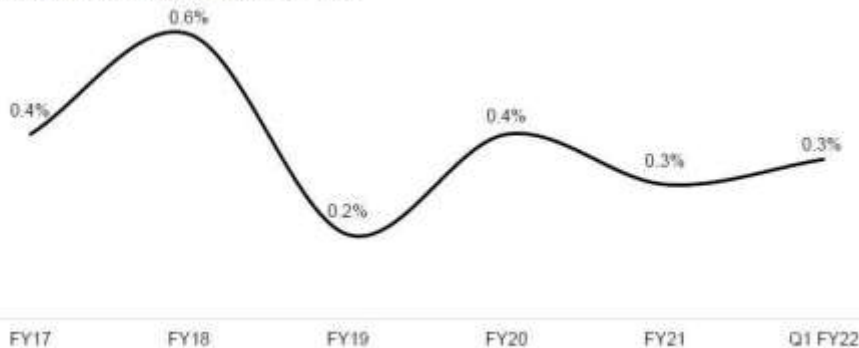

Chart 1: Assets of gold loan NBFCs rising steadily (Rs lakh crore)

Source: CRISIL Ratings estimates based on a representative set of gold loan NBFCs.

75% LTV (Loan to Value) and short term tenor (~58%* loans in 1-3 months avg tenor), emotional value attached to the ornaments, aiding better credit quality

Chart 2: Credit cost well within historical range

Source: CRISIL Ratings estimates based on a representative set of gold loan NBFCs.

Key Future Trends in Gold Loans

- Shift from Physical Gold branches to Phygital & Digital
 - Phygital entails use of tech & process improvements in disbursement & collections
 - Digital entails a paradigm shift- Digital sourcing, Valuation @ the doorstep, Instant KYC and Application process, Gold Storage@ central vaults, security using RFID tags, return in 2hrs post closure.
- Unlocking the potential of less penetrated markets

The following graphic illustrates the allocation of household assets in gold against the allocation of household debt in gold.

- Shift of Gold NBFCs in to other competitive products (MSME, Microfinance etc...) leveraging the branch, people and tech infrastructure

MICRO ENTERPRISES**

'M'SME INDUSTRY- OVERVIEW

Credit Gap by Size of Enterprise- 2017 (INR trillion)*

*Figure in brackets is in USD billion

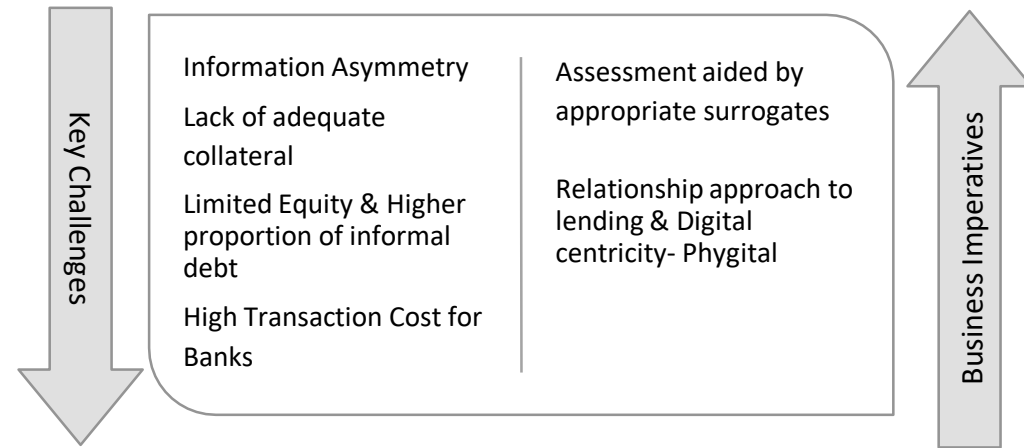

Source: WBC-InfraCap/Analysts, Primary Research

Note: Classification based on earlier definition of MSMEs

Eco-system Enablers

- Huge market potential
- Enabling eco-system changes, a big positive
 - Increased digital footprint aided by
 - Internet penetration - ~45% in 2021, as against mere 4% in 2007
 - Mobile connections- ~79% of the population
 - UPI, Aadhaar stack
 - GSTN
 - Revised MSME definition & increased insistence on Udyam Registration- An attempt towards formalization
 - Legitimacy to highly informal street vendors- PMSVanidhi
 - Appreciable changes in CGTMSE schemes
- Increased Investor support- Evidenced from PE funds in to Fintechs/NBFCs

Challenges & Business Imperatives

Key Players & differentiating

factors Banks

- Offer largely **secured and high-ticket-size** loans to medium enterprises |
- *Differentiation:* Fund availability, **competitive interest rates** and long-standing relationships

NBFCs

- Focus more on smaller enterprises than banks; New Age NBFCs targeting emerging micro and small enterprises
- *Differentiation:* **Faster turnaround time** and less documentation compared with banks

Fintech

- Focus on **unsecured short-term capital** to MSMEs with smaller ticket sizes
- Greater risk appetite and **non-traditional credit risk assessment methods** allow lending to underserved segments
- *Differentiation:* Extremely fast turnaround times and **lesser documentation** compared to NBFCs; provide **higher flexibility in terms of loan tenure** and repayment methods

MASS MARKET BUSINESS LOANS (<5 L)- PERFORMANCE SNAPSHOT

Mar-21

	BL
Portfolio Outstanding (₹ K Cr)	93.1
Y-o-Y Growth %	15.3%
2-Year Growth %	32.5%
Active Loans (Lakh)	108.80
Y-o-Y Growth %	34.2%
2-Year Growth %	13.1%
Volume Delinquency 31-180%	6.9%
Value Delinquency 31-180%	7.6%
Originations Value FY21 (₹ Crore)	32,856
Originations Volume FY21 (Lakh)	50.2
Average Ticket Size in FY21 (₹ K)	65.5
Y-o-Y Growth %	-55%
2-Year Growth %	-44.2%

- Size of total lending market in India as of Mar'21 is at ₹ 156.9 Lakh crores. Retail and Commercial lending each contribute 49% to total lending in India while Microfinance contributes 2%.
- Business loans (Loans to Professionals, Business Loan General, Business Loan Unsecured, Business Loan Priority Sector Small Business, Mudra Loan) comprises of 5.49 Lakh cr O/s as on Mar-21 against the total Retail loans book of Rs 77.5 L cr.
- Within the Business Loan category, < 5Lakh ticket size portfolio which Keertana targets (Avg ticket size) comprise of Rs 93K cr. Table adjacent reflects the performance of this segment.
- This segment constitutes ~91% of the Business Loan segment in volume, but ~25% in value.

Portfolio Outstanding - Lender Mix (as of Mar'21)

- Public sector Banks lead the space followed by others (Coop Banks/RRBs). Could be largely accounted for Mudra loans
- NBFCs outsizes Pvt sector Banks
- Rural constitute 55% of loan accounts, but mere 40% in value, signifying tremendous growth potential

Average Ticket Size (₹ K) FY19-FY21 - Overall

- Average Ticket size for FY21 appears lower due to impact of Covid-19 and disbursements of low value emergency credit lines (~83% originations < Rs 1Lakh ticket size)

Value Delinquency Trends (PAR 31-180%) - Overall

- Delinquency though lower than other asset classes like STPL, VCL and TW), its still signifies heightened risk
- As on Mar-21, PAR (31-180) for Pvt Sector stands at 13.9%, NBFCs at 8.6% and PSBs at 6%

While Micro-Enterprise lending is fraught with risks, the players that stick to fundamental credit principles (Capacity, Capital, Collateral, Conditions and Character) are bound to succeed. Keertana embeds such principles in its business model

BUSINESS MODEL- JOURNEY

- Potential and Risk Assessment
- Screening & centralized approvals
- Standardized Infra set up

- Auto / Van Canvassing
- House visits, Umbrella Activity

Recommend products suiting customer requirements

- Informal discussion with borrower on legitimacy
- Follow checklist of early warning signals to avoid spurious, /stolen gold
- Household income assessment to ascertain – holding capability & repayment capacity

- Gold Appraisal through Nitric Acid test, Salt-water test, sound and smell tests.
- Every Ornament shall be checked for Hall Mark (91.6) certification.

Graded, level-based Sanction Matrix depending on the quantum

- Vaulting happens only once in a day
- Till then the ornaments in sealed cover are placed in a safe operated under proper custody

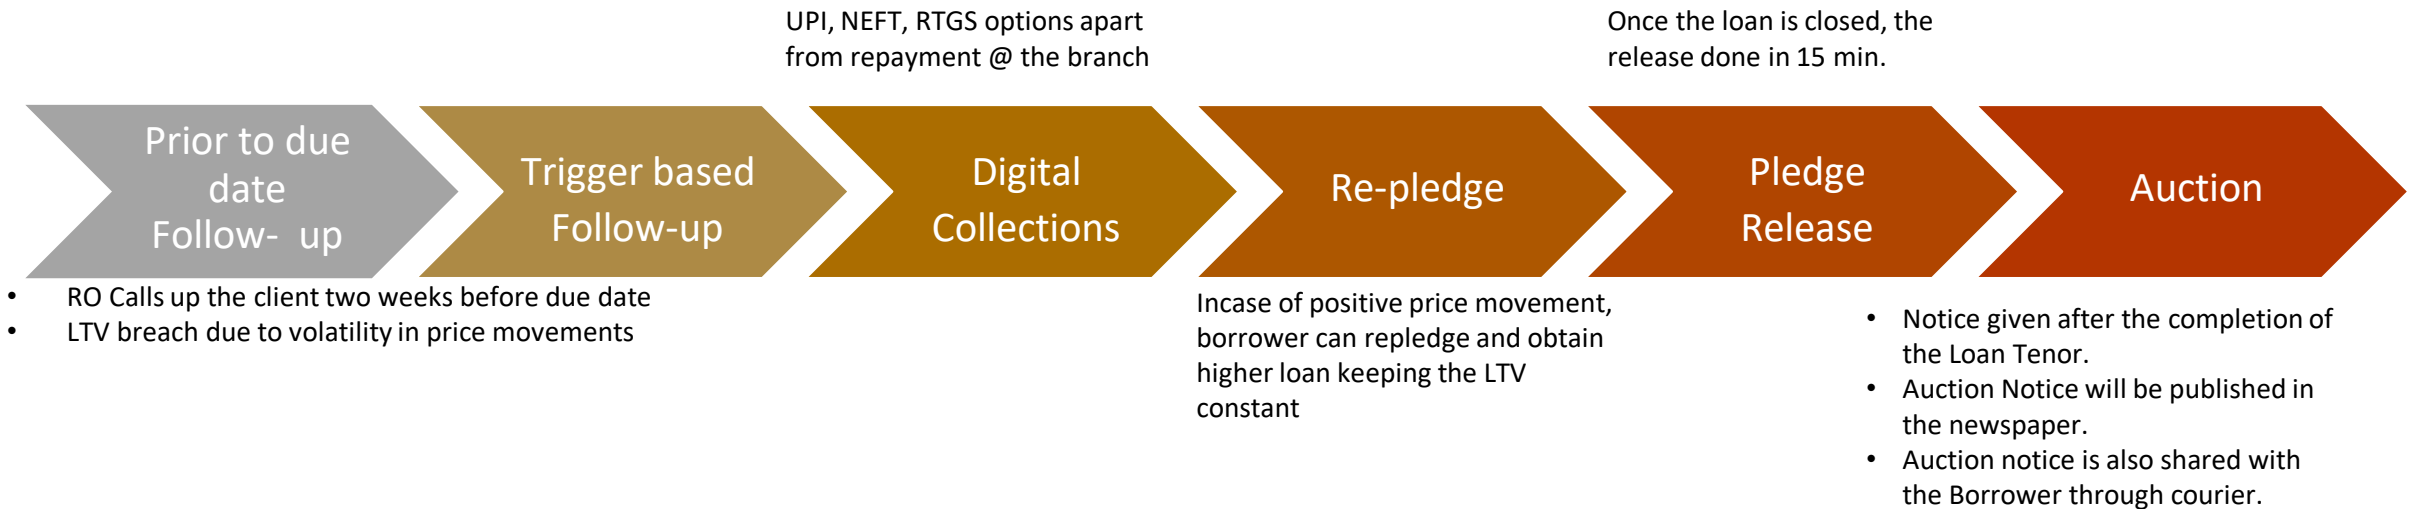

Documents verified for legitimacy

- Document Execution
- Disbursement in to Bank A/c of the borrower
- Ornaments placed in sealed cover. Weighed before the customer, signed by him and the staff

Standard Op. Procedures are laid down to avoid potential scope for misappropriation

LOAN RECOVERY JOURNEY & AUCTION

Check and Controls

- Thorough due-diligence on the field staff prior to recruitment
- Well laid out process controls pertaining to access to vault and safe.
- Strong IT and MIS systems to provide reports for prompt follow-up with the clients

Security Standards

- Branches are fully compliant with the security standards specified for Gold Loan Branches by various regulators;
- Each Branch has a strong room and has a vault (BB Class Godrej Locker) to store the Gold; Locker Room is under 24 hours surveillance of CC Camera;
- Vault has security alarm system and further protected by Strong Door and Iron mesh;
- Each Branch has a Currency counter and detector and a certified Weighing scale.
- Each Branch has two Security Guards working in two shifts.
- Centralized monitoring of CC TV Footage of all Branches.

Supervision & Monitoring

- One Auditor for every Cluster (every 8 branches is one Cluster)
- Well established HR structure
 - Each Branch to have 1 Ops Manager and Ops Executive and 1 SM and 3 to 4 Loan Officers
 - Ops Manager to do Assaying
 - Ops Managers and Sales Managers to report to Cluster Manager
 - 3-4 CMS to report to AVP

GROUP LOANS - BUSINESS MODEL

Market identification
and distribution

Loan lifecycle

Clearly defined strategy and robust process to enter new geographies

Identification of
states and districts
within states

- Continuous evaluation of new geographies to ensure strong growth momentum and further diversification
- **100% rural focus; Branches are opened only in Mandal Headquarters**
- Robust process of identifying new geographies through **Mandal level market survey** and data analysis of external databases to check competition, experience of peers etc.
- Field visit of potential areas and meet competition to understand area specific issues

Criteria of opening
branches

- First order analysis focuses on **population and number of households** in the mandal
- Look to ensure that the **Keertana branch is within a 30km radius** of the potential borrower pool
- **Infrastructure requirements, law and order situation** and experience of other lending institutes are also taken into account
- Target to **on-board 2,500 borrowers within a year and 3,000-3,500 borrowers within 2 years**
- **Borrower diversity ensured even at branch level** – in religion, community and occupation
- Not more than 2 MFIS operating from the location

Village-level survey
and projection
meetings

Branch Manager conducts detailed survey on sample villages to assess the following:

- **Population**, population density and **number of households**
- **Accessibility of the village** throughout the year
- **Major occupations** in the village / Migration trends
- **Experience of other lending** institutions in the area with respect to **asset quality**
- After branch approval, **Village level meetings are held** where prospective borrowers are informed about the **policies, products and processes**
- **Pre-decided script delivered by branch manager** with Keertana's value proposition

GROUP LOANS- BUSINESS MODEL

Market identification
and distribution

Loan lifecycle

1 A group of 6 to 10 members is formed. KYC documents and own house proof are collected. Credit Bureau Check done and the Loan is sanctioned / rejected instantly.

2 Clients are trained on the product features, Loan Disbursement process, Group Guarantee, Centre Meetings and collections.

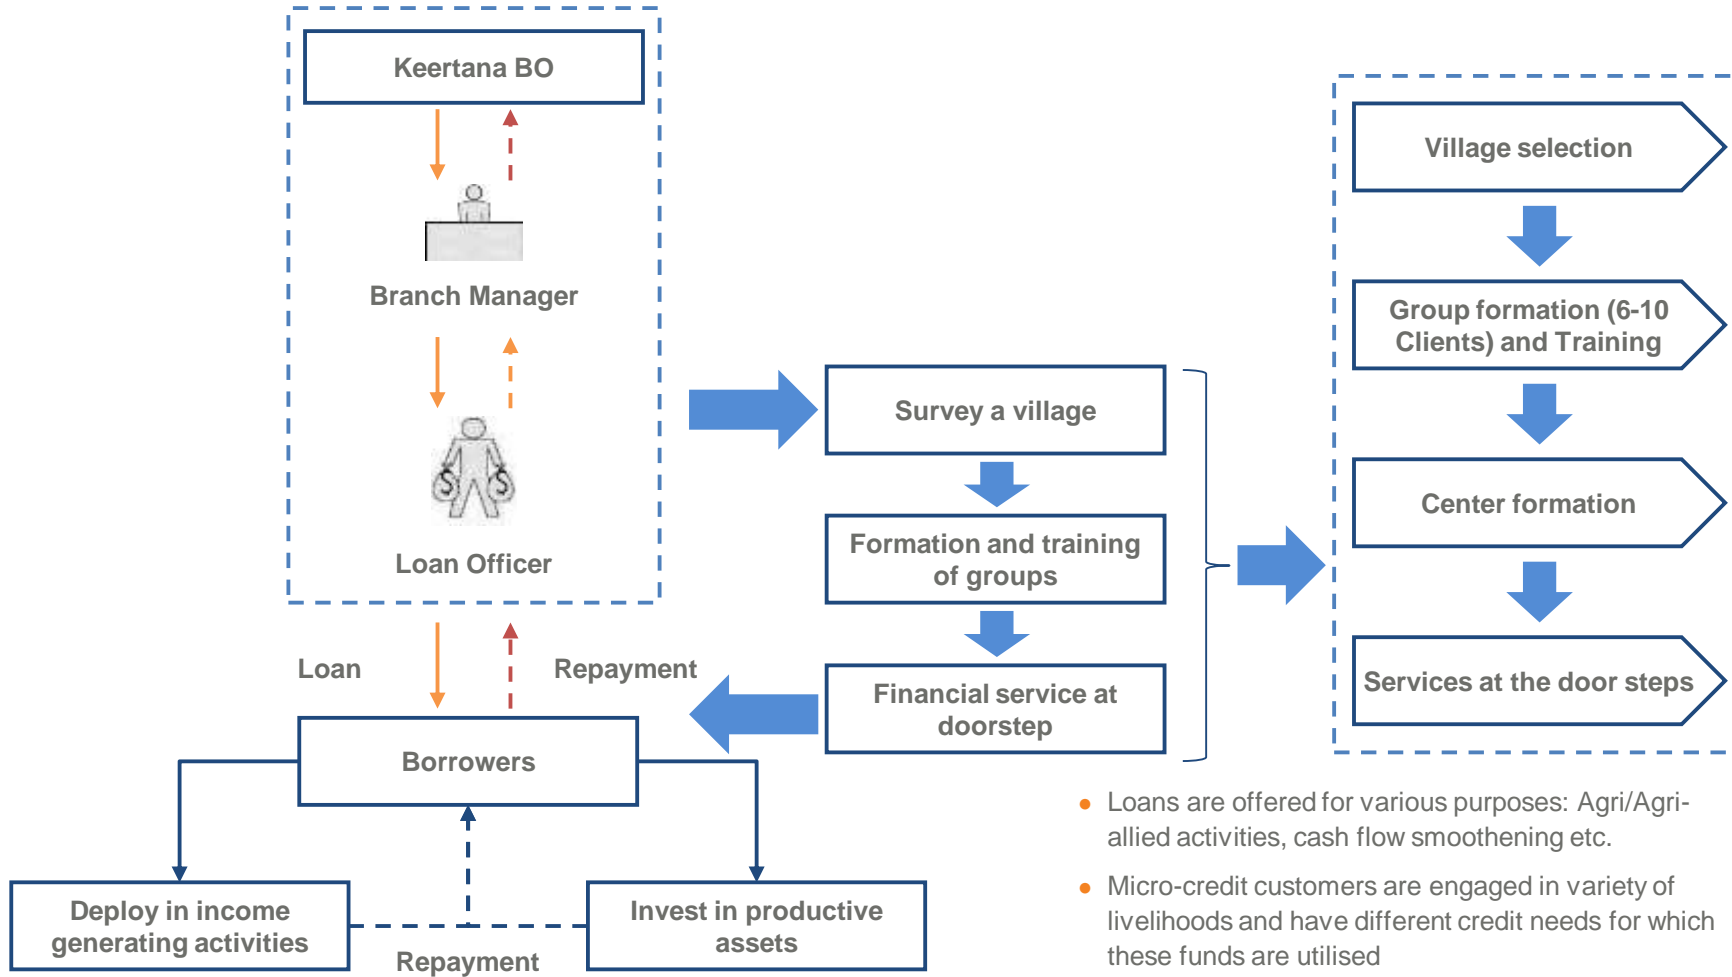

3 Household Cashflow Assessment and Loan Sanction

- 4
- Clients along with Spouses come to Branch to execute Loan documents
 - BM once again explain the Terms and Conditions
 - Loan amount is disbursed directly into the Borrowers bank account

5 Centre meetings and Collections

6 Process Audit and Supervision of the Branches | Regular Portfolio Monitoring

MICROFINANCE- BUSINESS MODEL

- Loans are offered for various purposes: Agri/Agri-allied activities, cash flow smoothening etc.
- Micro-credit customers are engaged in variety of livelihoods and have different credit needs for which these funds are utilised

TECHNOLOGY

Technology (Business supported by cutting edge technology and agile processes and systems)

GLMS & finS : In-house Developed ERP Application

Smart and User friendly Desktop & Web enabled ERP system

Highly Capable and robust infrastructure to carry out millions of transactions

Automated reports for analysis and planning business activities in a matter of clicks

Control mechanism to limit transactions beyond allowed limits with real time reconciliation

Algorithm that restrict errors and fraud

A Complete IT solution catering to all functions

Efficiency

- ✓ Enables real-time paper-less processing of all loans, providing our borrowers with industry-leading TATs
- ✓ System / process design also leads to more efficiency for branch staff – enabling us to have a lower operating cost
- ✓ For examples, no data entry is done at branches KYC docs are all scanned, and then processed by the system + a central data team

Data & Analytics

- ✓ System provides real-time borrower-level information (not just group level), which enables sophisticated data analytics to be used.
- ✓ Real time Dashboards for timely decisioning

Control

- ✓ Disbursements and collections plans entirely system-controlled – removing risk of errors / frauds in field
- ✓ Enables corporate tactical decisions to be transmitted to the field instantly

08

RISK MANAGEMENT

RISK MANAGEMENT

The company understands key areas that might pose significant threat to the health of the business operations and the company. To address this, multi-tiered risks Management measures are put in place. Risks are broadly classified as **Operational, Credit, Market and Residual**

Main Risk Category	Key Areas of Concern	Key Mitigation Measures
Operational Risk	Theft, Burglary	Secured lockers, Safe rooms, Joint custody for safe operations
		24x7 CCTV surveillance, Advanced and high end security systems supported by advanced IT
		Gold ornaments are segregated Account wise, and are subject to Internal Audit & External Audit
		History of verification of each pledge to be maintained in the system
		Insurance against Burglary, Fire and Transit risks
		Well-scrutinized premises for legally valid title, security concerns in the area
	Inefficiencies resulting in slackening of controls, thus resulting in frauds/misappropriations	Proper and periodically reviewed systems and procedures ensuring uniformity in process, reduction in errors, well-built internal controls and enhance overall efficiency
		System driven control mechanisms developed to help analyse root cause of a lapse/error
Staff-level collusion resulting in acceptance of spurious gold, misuse of cash etc..	a.) Strong Internal Audit and Controls b.) Internal Auditor visiting a Branch twice a week (surprise checks) c.) Surprise checks by DMs and AVPs (Line Management) d.) Physical verification of cash by the Supervisory team and IA Team; e.) Tiered sanction powers, corresponding with grade/seniority and track record	
Business Continuity resulting from disruptions	Well drafted and vetted Business Continuity Plan in place ensuring conducting critical business operations during unexpected disruptions, including, but not limited to IT system and Disaster Recovery Plan	
Weak performing branches building riskier business	Risk Gradation of Branches- based on various factors (Financial, Business related, recovery, auction accounts, history of spurious pledges, customer concentration, competence of staff, audit irregularities and many other such important parameters)	

Main Risk Category	Key Areas of Concern	Key Mitigation Measures
Credit Risk	Diminution of collateral value	Well, drafted and meticulously implemented loan and auction policies. LTVs system monitored & any shortfall beyond a threshold shall trigger a margin call & lack of response leads to auction
	Credit Risk arising out of incompetent/in-experienced branch staff, resulting in over valuing collateral	Regular and Effective training to staff from time to time. In the process to facilitate training needs of growing staff count, prepare a battery of gold appraisal experts
	Over-lending to a borrower- Has implication on serviceability & also a trigger for AML	Unique Customer Identification to help track multiple loan accounts, this keeping a tab on borrower level exposures. Alarming trends shall be reported under AML guidelines
	Certain segments of borrowers pose greater credit risk	Risk Gradation of borrowers- Restriction on certain category of borrowers such as gold smiths, jewellers. Categorization of borrowers based on their track record enabling rightful selection & avoidance.
	Improper Loan Documentation might weaken the case resulting in credit losses	Strict KYC policies and system generated documentation Multiple levels of scrutiny asides audit helps mitigate this risk
Market Risk	Price and Interest Rate Risk. Volatility might pose risk to the company's financial health	Market volatilities are monitored Daily and necessary IT systems built to raise an early warning signals. Macro Economic environment & appropriate LTVs are factored into product offerings
	Liquidity & Maturity mismatch resulting in financial stress	Short term lending, and long-term borrowing - provides positive ALM and cushion in case of adverse market condition affecting short term liquidity in the market
		Diversified Funding sources avoids reliance on few Banks/FI
		Efficient Cash Management systems in place, avoiding excess cash blockage at the branches
	Robust collection & recovery processes- ensures a healthy portfolio build up	
Residual Risks	IT Risk	Secured system of access control, efficient password management, access to data on need-to-know basis, Anti-virus, periodic IT and systems Audit. Use of only authorized and licensed software
	Regulatory & Compliance Risks	Policy review mechanisms by the Board on evolving regulatory changes, helps mitigate compliance misses
